Who we are

CNT Build, LTD is a company based in London that provides materials and services in different areas of construction.

We are part of a Portuguese construction group with 25 years' experience working across Europe, including Portugal, Germany, Belgium, Netherlands, France, Spain and Gibraltar. With our extensive knowledge of the business market, as well as significant investment in human resources, we have increasingly earned the confidence of our customers, suppliers and partners, achieving a remarkable success in different countries.

Our focus is the customer and their satisfaction. We engage with clients, promoters and architects in finding the most appropriate solution for each project, from the design to the execution.

Our key principals of cooperation and flexibility are most valued by our customers, as well as the integrity, knowledge and dedication of our team.

Our Vision

To be a source of knowledge and strength in the Construction and Engineering sectors.

Our Mission

Manage projects with expertise and innovation, focusing on strategic partnerships and new markets, whilst being grounded in a culture of excellence and sustainability.

Provide services and integrated solutions for our customers, guaranteed to be synonymous with quality, reliance and efficiency.

Our Skills

Formwork and
Construction

Carpentry and
Joinery

HVAC

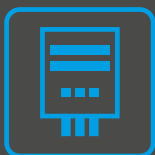

Metalworking

Electricity

Maintenance

Electrical Panels

BIM

For each one of these areas, we have teams of highly specialised individuals ready to ensure the satisfaction of our clients. You can feel confident in adding CNT Build to your tender list and we look forward to receiving your future enquiries.

FORMWORK AND CONSTRUCTION

Operating across various European countries, CNT currently holds an enviable portfolio, consisting of various large-scale projects that demonstrate our diverse range of knowledge and skills.

With a solid organisational structure, highly qualified technical staff, skilled labour force, expert equipment, and financial capacity, CNT Build is equipped to embrace projects of a significant scale and importance for our partners and clients. Maintaining both quality and safety whilst meeting deadlines, we are prepared to promptly and efficiently respond to the sector's demands.

ELECTRICITY

We provide integrated solutions in undertaking low voltage electrical works, from conception and design to construction and installation. We are experts in mounting electrical distribution switchboards for any type of buildings, including residential, commercial, service, industrial, hotels and hospitals, among many others.

CARPENTRY

In the carpentry sector we maintain high standards of quality in an area of sustained growth. Our independent industrial production facility in Portugal can respond immediately to the needs of every market.

We can offer products in line with the technical requirements of many local legislations, fully designed and manufactured in Portugal, whilst overseeing their installation using our own dedicated teams, or local companies.

We can also integrate metal work in complementary materials such as inox, iron and aluminium.

PROJECT COORDINATION AND BIM

Our technical department is responsible for the design of civil engineering projects; analysing and linking their qualities in order to detect any non-conformities.

They also provide optimisations, alternative solutions, quantity surveys during the tender stage and implementation of BIM methodology.

How we conduct our business

The most important aspect of what we do is the way we do it.

- 08** We believe that it is our people who drive our business and are our greatest asset. For this reason we have increasingly invested in identifying talent within our teams, developing tools that allow us to retain and attract highly talented individuals. It is the trust, commitment, experience and know-how of our employees which underlines their ability to provide innovative solutions whilst building strong relations with our customers.

TRAINING

RECRUITMENT AND SELECTION

Our significant industry experience has allowed us to build, develop and refine our recruitment process, ensuring that every vacancy is filled with efficiency. All employees are required to go through a phase of specialised selection and training in order to ensure that every recruit meets our standards.

TRAINING INVESTMENT

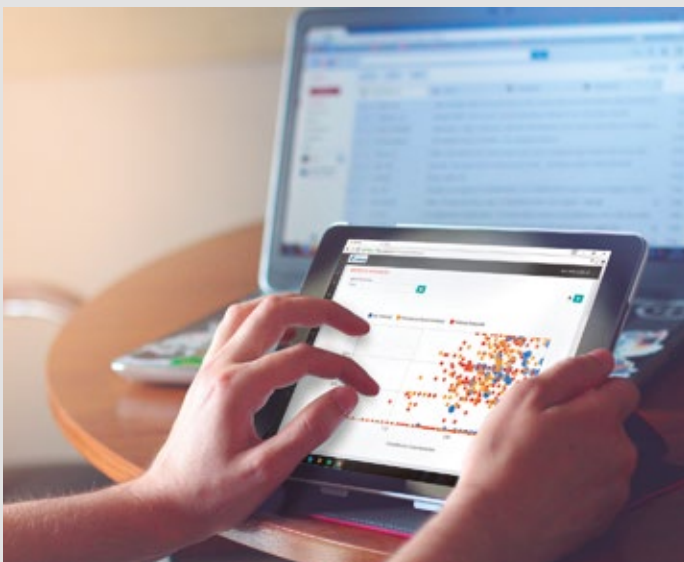

We invest heavily in the interpersonal and technical training of our staff through our internal and external learning and development sessions.

09

CONTINUOUS EVALUATION

By using our bespoke system, we are able to consistently evaluate the performance of our employees. Our principal aim is to identify the potential of each individual, whilst ensuring we have the right people for the right job.

VALUES

SAFETY FIRST

- Training courses for the site teams
- Simulacra
- Technical Workshops of Safety
- Specialized and certified teams in VCA (*IPAF cat. 3b*)
- Teams with NEBOSH training
- Specialized and certified teams for nuclear plant sites (*GDF Suez Electrabel*)

DEFENSE

- Qualified and certified teams – OTAN SECRET
- Control and traceability in access to work site
- Guaranteed protection of customer data and information
- Experience in building anti-explosion systems
- Know-how in the construction of bunkers

Azurém (Guimarães) // Casais EC

Our numbers

Today, Casais Group is one of the largest companies in Portugal's construction industry, operating in 15 countries. We are builders of organisation and construction contracts. We can assemble, disassemble and adapt. Our business centres around the management of several contracts to execute a set of projects. Our skill lies in coordinating and positively responding to each of these contracts individually. At every turn, our goal is to continuously exceed the expectations of our clients. We ultimately aim to build the expertise and sustainability of our organisation within an increasingly global and competitive market.
